Through experiential learning, YE helps students discover their innate gifts and talents while gaining a principled mindset and the economic understanding to leverage those skills in win-win scenarios that benefit both themselves and others.

Our program is championed and fully funded by passionate community leaders, volunteers, partners and donors who seek to improve their communities through youth education.

We engage with schools and institutions who are committed to helping students, particularly those facing a lack of upward mobility, to acquire the values and skills necessary for lifelong success.

Dedicated YE educators receive the training, resources and freedom to customize lessons and activities that will benefit their students most. Our curriculum is available as a free resource to all educators through YEAcademy.org.

Our unique, hands-on curriculum is rooted in eight Foundational Values, timeless principles that contribute to the entrepreneurial, opportunity-focused mindset of lifelong learners.

YE students and alumni have access to opportunities that allow them to expand their capabilities and apply their newfound knowledge, including events, mentorship, networking, on-the-job training and more.

Youth Entrepreneurs is a nonprofit organization that equips middle and high school students with the entrepreneurial skills, values and vision to pursue their dreams. Our curriculum has enabled more than 30,000 alumni across the nation to overcome barriers and seize opportunities for the betterment of themselves and others.

Founded in 1991, Youth Entrepreneurs is a nonprofit organization that equips middle and high school students with the entrepreneurial skills, values and vision to pursue their dreams. Our curriculum has enabled more than 30,000 alumni across the nation to overcome barriers and seize opportunities for the betterment of themselves and others.
