

CULTIVATING THE ENTREPRENEURIAL SPIRIT

YE Summit 2019 will bring together over 300 students and alumni from across the nation to Detroit, MI, a city which continues to be a source of inspiration and innovation. This week-long event will focus on students' immersion in innovation, entrepreneurship, personal transformation, and self-actualization in the backdrop of a city experiencing the same.

Students will connect with community leaders, entrepreneurial innovators, and partner organizations from across the nation. New this year will be the addition of a partnership expo, connecting student's to engagement opportunities such as mentorships, internships, scholarships and professional development. YEedu, the annual professional development conference for 300+ YE educators, will take place simultaneously and include several collaborative sessions with students and educators.

READY TO GET INVOLVED?
