

## Our Vision

Youth Entrepreneurs (YE) allows educators the freedom to implement its experiential curriculum in the way they deem is best for their students, regardless of the class's subject matter or setting. Through this flexibility and customization, YE educators are able to focus beyond the frustrations of the systemic challenges and develop the individual characteristics and innate abilities of the students in their class. Teachers, in turn, are empowered to create a better state for students, one wherein they thrive and understand their potential. By internalizing our 8 Foundational Values, educators become empowered to transform the lives of students, helping them to self-actualize and realize their intrinsic abilities.

## 8 Foundational Values

Responsibility

Be Principled

Knowledge

Freedom

Passion

Opportunity

Sound Judgment

Win-Win Focus

## What is Educator Empowerment?

YE seeks to ignite a passion for learning across the nation that taps in to the talents of educators who can unlock the incredible gifts each student has to offer. Educators are encouraged to adopt an entrepreneurial mindset and truly own their classroom by offering engaging, hands-on activities of their choice that help build self-confidence and provide real-world experiences for their students. Resources, tools, support, and a network of educators are offered by YE to ensure educators are successful—all at no cost to the educator or their school or program.
